## Group Exercise Instructor & Personal Trainer Certification Exam Annual Statistics Report

»2016«

The NETA-CB Group Exercise Instructor and Personal Trainer Certifications are proudly accredited by the NCCA.

This report provides an overview of statistics for both the Group Exercise Instructor (GEI) and Personal Trainer (PT) certification examinations administered by the National Exercise Trainers Association – Certification Board (NETA-CB) from January 1 to December 31, 2016. The examinations discussed in this report were administered in a number of locations throughout the United States at different times throughout 2016. The data from these administrations have been combined and serve as the basis for the statistics appearing in this report.

The GEI and PT certification examinations were administered via computer-based testing (CBT) and paper-and-pencil format using computer-scan answer sheets (i.e., Scantron®) under secure, independently-proctored arrangements. Computer-based exams were administered at Comira Test Centers throughout the United States.

The statistical analysis for this report was conducted by Dr. Pamela Ing Stemmer, senior psychometrician with PSI Services (f.k.a. Computer Assisted Testing Service, Inc., d.b.a. Comira).

Table 1 summarizes the statistics for all GEI and PT examinations administered in 2016. Statistical reporting of the passing score, pass rate, and average score are based solely on candidates' responses to the 100 scored items appearing on each form of the exam. Additional data including standard deviation, standard error of measurement, decision consistency, and reliability estimate are available upon request.
