NETA Minor Permission Form

Student's Name: _____

Exam Date: _____

Exam Type: _____

Dear Student/Candidate,

Please read this form carefully. Also, have your parent/guardian read this permission form carefully. You and your parent/guardian must sign in the spaces provided and return this form (keep a copy for your files) to NETA prior to the designated exam date.

Candidates must be at least 18 years old, or hold a high school diploma or General Educational Development (GED) diploma. NETA will permit students who are younger than 18, yet have not graduated high school, to sit for the exam provided they are within 90 days from one of these milestones (i.e., 18th birthday, H.S. graduation). In other words, on the day of the exam, the student must be 90 days or less from either their 18th birthday or graduating from high school. However, NETA cannot officially grant the certification until all eligibility requirements are satisfied. Candidates younger than 18 years of age must complete a NETA Minor Permission Form in order to sit for a NETA certification exam. If a candidate passes the exam, then once all other eligibility criteria are satisfied (i.e., valid adult CPR/AED certification), NETA will issue the candidate their official NETA credential.

The computer-based version of NETA's Personal Trainer Certification exam is administered using remote online proctoring services provided by ProctorU. During the exam, a live proctor will monitor the candidate via screen sharing, webcam, and microphone in order to maintain the security and integrity of the testing process. All exam sessions are recorded. Please review ProctorU's Privacy Policy located at https://www.proctoru.com/privacy-policy. The paper-pencil version of the exam is administered onsite as arranged by the host site facility.

Please refer to the *Exam Candidate Handbook* on NETA's website for important information, policies, and procedures regarding NETA's NCCA-accredited certifications.
